Blue Pacific MINERALS

CLEVER by NATURE

A MATCH MADE IN AGRI-HEAVEN

THE ULTIMATE **POWER COUPLE**

When maximum growth meets unshakable resilience!

NS32™ UAN

THE PASSIONATE DRIVER

- *I BRING THE ENERGY*
- *I FUEL THE GROWTH*
- *I FEED THE POTENTIAL*

PROVENTUS DS

THE DEVOTED PROTECTOR

- *I CATCH YOU WHEN YOU STUMBLE*
- *I SHIELD YOU FROM THE ELEMENTS*
- *I KEEP YOU STRONG*

NS32™ is the hard-working, high-octane partner every New Zealand pasture and crop dreams of.

Powered by a high-grade 32% Nitrogen and 4% Sulphur UAN formulation and enriched with activated ocean kelp, **NS32**™ feeds crops both above and below the surface.

By supporting beneficial soil microbes, it drives vigorous growth, rapid green-up, and yield gains.

Core Strength: ***Delivering rapid nitrogen nourishment while caring for long-term plant and soil health.***

Proventus® **DS** is the calm, protective force engineered by Novonesis.

Packed with 7 antioxidant rich ingredients, this bio stimulant complex contains; humic acids, cold-water kelp, amino acids, and vital antioxidants (Vitamins C, B1, E, and Myo-inositol). **Proventus**® **DS** is the ultimate stress recovery partner. It neutralises damaging reactive oxygen species (ROS) caused by extreme summer heat, drought, heavy grazing, waterlogging, or high-nitrogen loads.

Core Strength: ***Neutralising stress, expanding root networks, and ensuring fast recovery during harsh seasonal conditions.***

Together, they are unbeatable under the summer sun. When NZ summers hit hard with high temperatures and dry spells, crops can quickly stall under heat stress and oxidative damage. **NS32**™ + **Proventus**® **DS** is summer stress proven: as **NS32**™ fuels essential plant development, **Proventus**® **DS** actively neutralises heat-induced ROS stress, prevents tip burn, and protects plant cell membranes. Whether you're keeping dairy pastures lush through a dry Waikato summer, pushing maize through high heat in Canterbury, or guarding arable crops against water loss, this match ensures maximum yield, zero heat setbacks, and sustained profitability.

Lock in the ultimate power couple today!

Take advantage of our huge seasonal bundle sale and secure your supply of **NS32**™ + **Proventus**® **DS** at unbeatable summer prices.

ORDER TODAY & SAVE BIG!

GIVE YOUR CROPS THE LOVE STORY THEY DESERVE WITH **HIGH-PERFORMANCE NUTRITION** BACKED BY **SUMMER-PROVEN STRESS PROTECTION.**
