Optimate™ **LooseLicks Sheep** provides full-spectrum mineral nutrition designed specifically for sheep.

It balances the key macro and trace elements that are often deficient in pasture diets, supporting reproduction, growth, and overall wellbeing. Backed by the **Optimate™** registered toxin binder (ACVM No. A011800) for added protection and performance.

### FEATURES:

- **Complete mineral balance**  
Supplies essential calcium, magnesium, sodium, and trace elements (zinc, selenium, iodine, manganese, molybdenum), plus vitamins.
- **Supports production & reproduction**  
Aids ewe fertility, milk production, lamb growth, and fleece quality.
- **Natural protection**  
Includes **Optimate™** natural zeolite to assist in binding certain mycotoxins in the digestive tract.
- **Weather-resistant & palatable**  
Firm yet accessible for all classes of sheep.
- **Proven formulation**  
Formulated and made in New Zealand to suit local feed conditions.
