

# POST KIDDING HIGH-PERFORMANCE FEED SUPPLEMENT

NO ANTIBIOTICS

SUPPORTS IMMUNITY

GOOD BACTERIA

RUMEN HEALTH

### OPTIMATE™ GOAT POWER UP HELPS WITH

- Probiotics for rumen health
- Magnesium, calcium and phosphorus for lactating dairy goats
- Essential trace elements for healthy animals

### WHY USE OPTIMATE™ GOAT POWER UP?

- Because it includes NZ natural zeolite in the form of Optimate™ which is an ACVM Registered toxin binder.
- Probiotics provide good bacteria to maintain gut health
- Added Biotin, Thiamine and Zinc Methionine for peak health and production

### DIRECTIONS FOR USE

#### Recommended Daily Dose Rate Table

Litres	3L	3L	5L	5L
LW	60-70kg	80-90kg	60-70kg	80-90g
Dose	40g	50g	60g	65g

- Designed to be fed to lactating dairy goats

Not to be used with other sources of selenium without veterinary recommendation.

### HEALTH AND SAFETY

Material safety data sheets are available on request.

### WHAT IS OPTIMATE™ GOAT POWER UP?

- **Optimate™ Goat Power Up** has a special blend of macro minerals designed to help your dairy herds performance during lactation.
- **Optimate™ Goat Power Up** has the added benefit of Kemin® CLOSTAT® probiotics, macros, trace elements and vitamins. Kemin has identified and selected Bacillus subtilis PB6 as an active substance that helps maintain the balance of microflora in the intestinal tract of livestock. This helps with the maintenance and productivity of healthy animals.
- **Optimate™ Goat Power Up** has the added benefit of Biotin, Thiamine, ZinMeth as well as Vitamin A, E and D3. Designed for high producing goats on high grain diets.

### INGREDIENTS

Optimate™ ACVM Registration Number A011800.
