## THE ORIGINAL - NATURAL MYCOTOXIN BINDER

100%  
NATURAL

TOXIN  
BINDER

NO  
ANTIBIOTICS

SCIENTIFICALLY  
REVIEWED

Optimate™ is a registered toxin binder (*ACVM Registration Number A011800*) which offers year-round, natural, mycotoxin support for cattle, pigs, goats, sheep, and poultry.

### WHAT IS OPTIMATE™?

**Optimate™** is a natural animal feed additive from New Zealand. It is fed to animals as a natural toxin binder. **Optimate™** reduces the negative effects of aflatoxins in cattle, pigs, goats, sheep, and poultry. This product is for use in feed that meets industry standards for animal feedstuffs. It is not for use to modify feed that has unacceptably high levels of mycotoxin contaminants.

### FEATURES:

- 100% natural, made in New Zealand
- Safe for use in all young and adult animals
- BioGro certified input for organics

# Optimate™

## INGREDIENTS:

100% Natural Crystalline Aluminosilicates (may contain oxides including silica and aluminium oxide)

*Optimate™ is not a replacement for drugs, therapeutics, or energy (calories).*

*Optimate™ is 100% natural product, used by New Zealand livestock farmers. Internationally it's more commonly known and referenced as Aluminosilica, used extensively as an animal feed additive.\**

ACVM Registration Number: A11800  
See [www.foodsafet.govt.nz](http://www.foodsafet.govt.nz) for registration conditions

*\*Scientific references available upon request.*

## DIRECTIONS FOR USE:

- Inclusion rate of 1% - 2.5% of the daily DM feed intake is recommended.
- For general feed optimisation one (25kg) bag of **Optimate™** per tonne of supplementary feed is recommended.
- Please consult [www.bpmnz.co.nz/optimate-original](http://www.bpmnz.co.nz/optimate-original), your feed supplier, vet or farm advisor for further advice.
- Always ensure fresh clean water is available.
- Can be fed in feed troughs, in-shed feed system or mixer wagon.
- For Animal Treatment Only.

## STORAGE

Keep bag closed after use.  
Store in a dry place.
