

# MAGIC MUD™ NATURAL HAND CLEANER

Safety Data Sheet

Blue Pacific  
**MINERALS**

## 1. Identification of Substance & Company

### Product

Product name	MAGIC MUD™ NATURAL HAND CLEANER
Product code	NA
HSNO approval	NA – non hazardous
Approval description	Non hazardous
UN number	NA
Proper Shipping Name	NA
Packaging group	NA
Hazchem code	NA
Uses	Hand cleaner

### Company Details

Company	<b>Blue Pacific Minerals</b>
Address	11-17 Huttloc Drive, Tokoroa 3420 New Zealand
Website	<a href="http://www.bpmnz.co.nz">www.bpmnz.co.nz</a>
Telephone	+64 7 885 0550
Email	<a href="mailto:info@bpmnz.co.nz">info@bpmnz.co.nz</a>

## 2. Hazard Identification

### Approval

This product is not considered hazardous under the Hazardous Substances and New Organisms Act (HSNO), according to the criteria in the Hazardous substances (Hazard Classification) Notice 2020.

### GHS 7 Classes

none

### Hazard Statements

### SYMBOLS

none

### Precautionary Statements

none

## 3. Composition / Information on Ingredients

Component	CAS/ Identification	Concentration
Soft zeolites, soft non crystalline silica and mineral clays	Mixture	Not specified
Plant based surfactants	Mixture	Not specified
Plant based oil	Mixture	Not specified

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

## 4. First Aid

### General Information

You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (0800 POISON) (24 hr emergency service).

**Recommended first aid facilities** Ready access to running water is recommended.

# MAGIC MUD™ NATURAL HAND CLEANER

## Safety Data Sheet

Blue Pacific  
MINERALS

### Exposure

<b>Swallowed</b>	Do NOT induce vomiting. Give a glass of water to drink. Contact a doctor if concerned.
<b>Eye contact</b>	If product gets in eyes, wash material from them with running water for several minutes. If symptoms persist, seek medical advice.
<b>Skin contact</b>	Not applicable (hand cleaner)
<b>Inhaled</b>	Generally, inhalation of vapours is unlikely to result in adverse health effects. If coughing, dizziness or shortness of breath is experienced, remove the patient to fresh air immediately. If patient is unconscious, place in the recovery position (on the side) for transport and contact a doctor.

### Advice to Doctor

Treat symptomatically

## 5. Firefighting Measures

<b>Fire and explosion hazards:</b>	There are no specific risks for fire/explosion for this chemical. It is not classed as flammable.
<b>Suitable extinguishing substances:</b>	Carbon dioxide, extinguishing powder, foam, fog sprays, water jets.
<b>Unsuitable extinguishing substances:</b>	Unknown.
<b>Products of combustion:</b>	Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Water. May form toxic mixtures in air and may accumulate in sumps, pits and other low-lying spaces, forming potentially explosive mixtures.
<b>Protective equipment:</b>	No special measures are required.
<b>Hazchem code:</b>	NA

## 6. Accidental Release Measures

<b>Containment</b>	There is no current legal requirement for containment of this product. In all cases design storage to prevent discharge to storm water.
<b>Emergency procedures</b>	Generally, the containers size will limit a large spill from occurring. If a significant spill occurs: Stop leak if safe or necessary. Isolate area. Collect spill, see below. Transfer to container for disposal. Dispose of according to guidelines below (Section 13).
<b>Clean-up method</b>	This product is not considered flammable or ecotoxic. Small spills do not require any special clean up method. Larger spills (e.g., greater than 10kg) should be mopped up and collected.
<b>Disposal</b>	Mop up and collect recoverable material into labelled containers for recycling or salvage. Recycle containers wherever possible. This material may be suitable for approved landfill. Dispose of only in accord with all regulations.
<b>Precautions</b>	No special protective clothing is normally necessary.

## 7. Storage & Handling

<b>Storage</b>	Stable under normal use and storage conditions.
<b>Handling</b>	Keep exposure to a minimum, and minimise the quantities kept in work areas. See section 8 with regard to personal protective equipment requirements. Do not breathe dust.

## 8. Exposure Controls / Personal Protective Equipment

### Workplace Exposure Standards

A workplace exposure standard (WES) has not been established by WorkSafe NZ for this product. There is a general limit of 3mg/m<sup>3</sup> for respirable particulates and 10mg/m<sup>3</sup> for inhalable particulates when limits have not otherwise been established.

NZ Workplace Exposure Stds	Ingredient	WES-TWA	WES-STEL
	Zeolite may contain: crystalline silica (respirable)	0.025mg/m <sup>3</sup>	data unavailable

### Engineering Controls

In industrial situations, it is expected that employee exposure to hazardous substances will be controlled to a level as far below the WES as practicable by applying the hierarchy of control required by the Health and Safety at Work Act (2015) and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016. Exposure can be reduced by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods. If you believe air borne concentrations of mists, dusts or vapours are high, you are advised to modify processes or increase ventilation.

# MAGIC MUD™ NATURAL HAND CLEANER

## Safety Data Sheet

### Personal Protective Equipment

<b>General</b>	Personal Protective Equipment (PPE) should not be used as the primary means of exposure protection, except in the event of an accident or emergency situation or where all other means of protection have proven to be inadequate. Clean PPE after use or dispose of as appropriate. Store PPE for re-use in a clean place. Regular training on the correct use of PPE should be provided. In particular the correct fitting and use of respirators and where applicable the cleaning of respirators should be undertaken.
<b>Eyes</b>	Avoid contact with eyes.
<b>Skin</b>	If discomfort is felt (e.g., if pre-existing conditions exist, such as dermatitis, cuts or sensitive skin), discontinue use.
<b>Respiratory</b>	Respirator is not required under normal use. Ensure adequate natural ventilation.

### WES Additional Information

Not applicable

## 9. Physical & Chemical Properties

<b>Appearance</b>	viscous paste, tan colour
<b>Odour</b>	mild tea tree aroma
<b>pH</b>	>10
<b>Vapour pressure</b>	no data
<b>Viscosity</b>	no data
<b>Boiling point</b>	no data
<b>Volatile materials</b>	no data
<b>Freezing / melting point</b>	no data
<b>Solubility</b>	partially dispersible in water
<b>Specific gravity / density</b>	no data
<b>Flash point</b>	no data
<b>Danger of explosion</b>	no data
<b>Auto-ignition temperature</b>	no data
<b>Upper &amp; lower flammable limits</b>	no data
<b>Corrosiveness</b>	non corrosive

## 10. Stability & Reactivity

<b>Stability</b>	Stable
<b>Conditions to be avoided</b>	Containers should be kept closed in order to avoid contamination. Avoid the creation of dust.
<b>Incompatible groups</b>	None known
<b>Substance Specific Incompatibility</b>	None known
<b>Hazardous decomposition products</b>	None known
<b>Hazardous reactions</b>	None known

## 11. Toxicological Information

### Summary

IF IN EYES: direct contact may cause mild transient eye irritation. The powdered minerals may cause mechanical irritation (scratching)  
IF ON SKIN: no effect anticipated.  
IF INHALED: no effect anticipated.  
IF SWALLOWED: may cause nausea and vomiting. .

### Supporting Data

<b>Acute</b>	<b>Oral</b>	Using LD <sub>50</sub> 's for ingredients, the Acute Toxicity Estimate (ATE) (oral) for the mixture is >2,000 mg/kg.
	<b>Dermal</b>	Using LD <sub>50</sub> 's for ingredients, the Acute Toxicity Estimate (ATE) (dermal) for the mixture is >2,000 mg/kg.
	<b>Inhaled</b>	Using LD <sub>50</sub> 's for ingredients, the Acute Toxicity Estimate (ATE) (inhalation) for the mixture is >5mg/L/4h.
	<b>Eye</b>	This mixture is not classed as an eye irritant.
	<b>Skin</b>	This mixture is not considered irritating to skin.

# MAGIC MUD™ NATURAL HAND CLEANER

## Safety Data Sheet

<b>Chronic</b>	<b>Sensitisation</b>	No ingredient present >0.1% is considered a sensitiser.
	<b>Mutagenicity</b>	No ingredient present at concentrations > 0.1% is considered a mutagen.
	<b>Carcinogenicity</b>	Zeolites have been classed by IARC as group 3 – cannot be evaluated as to their carcinogenicity to humans. However, there is evidence that this material does contain quartz and cristobalite. Crystalline silica inhaled in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC Group 1).
	<b>Reproductive / Developmental Systemic</b>	No ingredient present at concentrations > 0.1% is considered a reproductive or developmental toxicant or have any effects on or via lactation.
	<b>Aggravation of existing conditions</b>	Respirable fraction of crystalline silica is considered to be a target organ toxicant, This product is a paste. Crystalline silica triggers STOT RE cat 1 classification if it is in the form of a fine respirable dust in an occupational (chronic exposure) setting. None known

## 12. Ecological Data

### Summary

This mixture is not considered to be harmful towards aquatic organisms. In all cases prevent run-off to drains, sewers and waterways.

### Supporting Data

<b>Aquatic</b>	Using EC <sub>50</sub> 's for ingredients, the calculated EC <sub>50</sub> for the mixture is > 100 mg/L.
<b>Bioaccumulation</b>	No data
<b>Degradability</b>	No data
<b>Soil</b>	No considered ecotoxic in the soil environment.
<b>Terrestrial vertebrate</b>	Not toxic towards terrestrial vertebrates
<b>Terrestrial invertebrate</b>	Not toxic towards terrestrial invertebrates
<b>Biocidal</b>	Not biocidal
<b>Environmental effect levels</b>	No EELs are available for this mixture or ingredients

## 13. Disposal Considerations

<b>Restrictions</b>	There are no product-specific restrictions, however, local council and resource consent conditions may apply, including requirements of trade waste consents.
<b>Disposal method</b>	Disposal of this product must comply with the Hazardous Substances (Disposal) Notice 2017 and the requirements of the Resource Management Act for which approval should be sought from the Regional Authority.
<b>Contaminated packaging</b>	Disposal of contaminated packaging must comply with the Hazardous Substances (Disposal) Notice 2017 clause 12. Ensure that the package is rendered incapable of containing any substance and is disposed in a manner that is consistent with the requirements of the substance it contained and the material of the package. If possible reuse or recycle packaging.

## 14. Transport Information

### Land Transport Rule: Dangerous Goods 2005 - NZS 5433:2007

There are no specific restrictions for this product (not a dangerous good).

# MAGIC MUD™ NATURAL HAND CLEANER

## Safety Data Sheet

### 15. Regulatory Information

This substance is not considered to be hazardous under HSNO.

#### Specific Controls

Key workplace requirements are:

SDS

Not required (non hazardous), but best practice to have the SDS available.

Inventory

An inventory of all hazardous substances must be prepared and maintained.

Packaging

All hazardous substances should be appropriately packaged including substances that have been decanted, transferred or manufactured for own use or have been supplied

Labelling

Must comply with the Hazardous Substances (Labelling) Notice 2017.

Emergency plan

Not required.

Certified handler

Not required.

Tracking

Not required.

Bunding & secondary containment

Not required.

Signage

Not required.

Location compliance certificate

Not required.

Flammable zone

Not required.

Fire extinguisher

Not required.

Note: The above workplace requirements apply if only this particular substance is present. The complete set of controls for a location will depend on the classification and total quantities of other substances present in that location.

#### Other Legislation

In New Zealand, the use of this product may come under the Resource Management Act and Regulations, the Health and Safety at Work Act 2015 and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, local Council Rules and Regional Council Plans.

### 16. Other Information

#### Abbreviations

Approval Code

Approval HSR002521, Animal Nutritional and Animal Care Products Group Standard 2020 Controls, EPA. [www.epa.govt.nz](http://www.epa.govt.nz)

CAS Number

Unique Chemical Abstracts Service Registry Number

EC<sub>50</sub>

Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)

EPA

Environmental Protection Authority (New Zealand)

GHS

Globally Harmonised System of Classification and Labelling of Chemicals, 7<sup>th</sup> revised edition, 2017, published by the United Nations.

HAZCHEM Code

Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters

HSNO

Hazardous Substances and New Organisms (Act and Regulations)

IARC

International Agency for Research on Cancer

LEL

Lower Explosive Limit

LD<sub>50</sub>

Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).

LC<sub>50</sub>

Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population (usually rats)

NZIoC

New Zealand Inventory of Chemicals

STEL

Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded

STOT RE

System Target Organ Toxicity – Repeated Exposure

STOT SE

System Target Organ Toxicity – Single Exposure

TWA

Time Weighted Average – generally referred to as WES averaged over typical work day (usually 8 hours)

UEL

Upper Explosive Limit

UN Number

United Nations Number

WES

Workplace Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed during work hours (usually 8 hours, 5 days a week). The WES relates to exposure that has been measured by personal monitoring using procedures that gather air samples in the worker's breathing zone.

### Disclaimer

This SDS was prepared by Datachem LTD and is based on our current state of knowledge, including information obtained from suppliers. The SDS is given in good faith and constitutes a guideline (not a guarantee of safety). The level of risk each substance poses is relevant to its properties (as summarised in the SDS) AND HOW THE SUBSTANCE IS USED. While guidelines are given for personal protective equipment, such precautions must be relevant to the use. The GHS 7 classifications for this SDS have been estimated based on general information from the supplier (e.g., hazard, toxicological), full formulation details were not available. This SDS is copyright Datachem and must not be copied, edited or used for other than intended purpose. To contact the SDS author, email [info@datachem.co.nz](mailto:info@datachem.co.nz) or phone: **+64 21 1040951**.
